

Barrow Jackson Civil Air Patrol Squadron #156 of the U.S. Air Force Auxiliary currently has open slots for a variety of senior (adult) member positions (examples of positions within a squadron include aerospace education, communications, logistics, emergency services, administration, scanners, and information technologies among others). Cadet openings for teens ages 12-17 are also available. Cadets get to fly O-Flights (Cessna's) and in gliders as part of their CAP experience; also scholarships are available through CAP. In addition, CAP cadets that achieve the rank of 2nd Lt or higher are eligible to join the military at a higher pay grade and rank. We are all volunteers, however adult membership in CAP looks great on a resume and the training received in CAP as part of your duty status could make a great impression on a future employer and give you an edge if someone otherwise your equal is interviewing for the same job.

No military experience is required. The CAP is an avenue where an adult of any age can serve their country and community if willing. In addition, the CAP has recently received official recognition as the fourth member of the Air Force Total Force team and can now proudly call them selves Airman while supporting the Air Force Mission. If you have always wished that there had been a way you could serve your country but didn't think it possible, the CAP is an avenue by which you can serve. With the CAP there are no "buts", "what ifs", or "if not for". As President Kennedy once said decades ago, *ask not what your country can do for you, ask what you can do for your country.*

We meet at 841 Ronald Wood Road (National Guard Armory at the Barrow County Airport), Winder GA 30680. FOR MORE INFORMATION: Maj Jeff Garrett, 678-361-1451; jgarr117@gmail.com
